Follow these helpful hints to get you started!

• Use the Rider's Guide to determine which route(s) you need to take to reach your destination. You can review maps and schedules for all the routes, or call Customer Service at (561) 841-4BUS (4287) or (877) 930-4287 (toll-free). Just let us know where and when you want to go, and we will instruct you on which route(s) to take.

• Once you've determined which route to take and the schedule for your bus, find the nearest bus stop sign. The bus route number is indicated on the sign.

• As the bus approaches, stand up and become visible so the bus operator knows you want to board. Stand away from the curb until the bus comes to a complete stop. Make sure you have your QUIK Pass or exact change ready.

• When the bus operator stops the bus, the bus will be lowered or "kneeled" for passenger safety.

• Once you are on the bus, read the fare rates on the farebox. If you qualify for a half fare, show your proper identification card to the bus operator.

• Have a seat and enjoy the ride. As a courtesy, please allow the front seats to remain open for senior citizens or for passengers using wheelchairs.

• As your stop approaches, pull down the "stop indicator" cord running along each side of the bus. The operator will stop at the next bus stop.

• Wait until the bus has come to a complete stop before exiting through the rear door. Remember to check for traffic after you've exited the bus. Traffic does not stop for public transit as it does for school buses.

Below is a step-by-step overview to help you better understand our schedules.

As a courtesy, the front seats of the bus are to remain open for senior citizens or passengers using wheelchairs, scooters, walkers, or any power-driven mobility device. The work or tasks performed by a service animal must be directly related to the individual's disability.

Individuals with disabilities who use portable oxygen devices are allowed to travel with respirators and properly secured portable oxygen supplies. Oxygen supplies must not obstruct the aisle.

Transfer points, major intersections and major destination points are announced on board the bus with an automatic stop announcement system.

Boarding a Palm Tran Bus with a Mobility Device

1. Wait in view of the operator: Wait by the bus stop where the operator can see you. That way when your bus arrives, the operator will know to deploy the ramp which helps save time.

2. Boarding the bus: You may board the bus by either facing toward the bus or away from the bus when using the ramp, whichever is easier for you.

3. Priority seating and securement areas: On board, look for priority seating area near the front of the bus. Two securement areas are provided for mobility devices.

4. Transfer to a seat: For your safety, you may prefer to transfer to a seat, as it may be difficult to safely be secured within some mobility devices. It is your choice to transfer or remain in your mobility device.

5. Press the signal strip to request a stop: About one block from your stop, press the plastic strips tape on the flip up seats in the wheelchair securement area. This signals the operator that you want to get off at the next stop.

6. Getting off the bus: When the bus stops, the operator will remove the securement straps from your mobility device if secured, and deploy the ramp.

This material is available in alternative formats for individuals with disabilities upon request. Please contact Palm Tran Connection's administrative office at 561-649-9848. For the hearing impaired, please call 1-900-230-6868 to obtain a Rider's Guide.

¡Para comenzar siga los siguientes consejos útiles!

• Use esta guía para determinar cual ruta(s) usted necesita tomar para llegar a su destino. Usted puede buscar los mapas de rutas y horarios alrededor del condado, o llame a Servicio al Cliente al (561) 841-4BUS (4287) o (877) 930-4287 (gratuito). Solo déjenos saber a donde y cuando usted quiere viajar, y le instruiremos que ruta(s) tomar.

• Cuando haya determinado cual ruta tomar y el horario, encuentre la parada de autobús más cercana. El número de la ruta del autobús está indicado en la parada.

• Mientras el autobús se acerca, póngase de pie y permanezca visible para que el operador del autobús sepa que usted quiere abordar. Manténgase lejos de la cuneta hasta que el autobús llegue a una parada total. Asegúrese de tener listo su QUIK Pass o cambio exacto.

• Cuando el bus se detenga, el operador bajará el escalón del bus para su seguridad y fácil acceso.

• Cuando haya abordado, lea el tipo de pasajes en la caja de tarifas. Si usted califica para una tarifa reducida, muestre identificación apropiada al operador del autobús.

• Tome asiento y disfrute el viaje. Como una cortesía, por favor permita que los asientos del frente queden disponibles para personas mayores o para pasajeros en sillas de ruedas.

• Una vez que se esté acercando a su parada tire del cable "indicador de parada" que corre a los lados de autobús . El operador se detendrá en la próxima parada de autobús.

• Espere hasta que el autobús haya parado completamente antes de salir por la puerta de atrás. Recuerde mirar el tráfico después que haya salido del autobús. Tráfico no para por tránsito público como lo hace por los autobuses escolares.

Constantemente estamos mejorando el diseño de nuestros horarios para hacerlos más fáciles de entender. En esta edición hemos añadido los números de la parada de autobús.

Proveemos Un Transporte Accesible

Todos los autobuses de ruta fija de Palm Tran están equipados con rampas para sillas de ruedas y la capacidad de bajar o "arrodillarse" en la acera. Estas características están disponibles para cualquier pasajero de Palm Tran cuando entre o salga del bus, previa solicitud al Operador de Autobús.

Como cortesía, los asientos delanteros del autobús deben permanecer disponibles para personas mayores o pasajeros que usen sillas de ruedas, scooters, caminadores o cualquier dispositivo de movilidad motorizada. "Silla de ruedas" significa una ayuda de movilidad perteneciente a cualquier clase de tres o más dispositivos de ruedas, utilizables en interiores, diseñados o modificados para y utilizados por personas con impedimentos de la movilidad, ya sea operado manualmente o con batería.

Todos las sillas de ruedas deben ser aseguradas por los operadores de Palm Tran cuando utilizan los servicios de Palm Tran. De acuerdo con la Ley Federal 49CFR parte 38, las áreas de asientos prioritarias son para personas mayores y personas con sillas de ruedas. Por favor sea considerado.

A los animales de servicio se les permitirá abordar. Por animal de servicio se entiende cualquier perro guía, perro de asistencia u otro animal entrenado individualmente para trabajar o realizar tareas para una persona con una diversidad funcional. El trabajo o las tareas realizadas por un animal de servicio deben estar directamente relacionados con la diversidad funcional del individuo.

Las personas con diversidad funcional que usan dispositivos portátiles de oxígeno pueden viajar con respiradores y suministros de oxígeno portátiles adecuadamente asegurados. Los suministros de oxígeno no deben obstruir el pasillo.

Los puntos de transferencia, las intersecciones principales y los principales puntos de destino se anuncian a bordo del autobús con un sistema automático de aviso de parada.

Abordar el servicio de buses de Palm Tran Bus cuando se usa un dispositivo de movilidad

1. Espere a la vista del operador: Espere en la parada del autobús donde el operador pueda verlo. De esta manera, cuando su autobús llegue, el operador sabrá desplegar la rampa y se ahorrará tiempo.

2. Entrar al autobús: Usted puede abordar el autobús ya sea mirando hacia él o lejos del autobús cuando se utiliza la rampa, lo que sea mejor para usted.

3. Asientos prioritarios y áreas de seguridad: A bordo, cerca del frente del autobús, busque el área de asientos prioritaria. Se proporcionan dos zonas de fijación para dispositivos de movilidad.

4. Transferencia a un asiento: Para su seguridad, usted puede preferir irse a un asiento, ya que puede ser difícil de asegurar al pasajero a un dispositivo de movilidad si está sentado (a) en el dispositivo de movilidad. Es su elección transferirse o permanecer en su dispositivo de movilidad.

5. Presione la tira plástica para solicitar una parada: About one block from your stop, press the plastic strips tape on the flip up seats in the wheelcA una cuadra de su parada, presione la cinta de plástico de los asientos abatibles en el área de seguridad para dispositivos de movilidad. Esto indica al operador que desea bajarse en la siguiente parada.

6. Bajar del autobús: Cuando el autobús se detenga, el operador quitará las correas de sujeción de su dispositivo de movilidad si está asegurado, y desplegará la rampa.

A petición, este material está disponible en formatos alternativos para personas con diversidad funcional. Comuníquese con la oficina administrativa de Palm Tran Connection al 561-649-9848. Para las personas con problemas de audición, llame al 1-900-230-6868 para obtener una guía del conductor.

PALM TRAN SERVICE BOARD

The Palm Tran Service Board (PTSB) is an advisory board to Palm Tran and the Board of County Commissioners regarding Palm Tran's fixed route and paratransit programs and services.

The mission of the PTSB is to make Palm Tran bus service more efficient and to serve as the ongoing mechanism for the participation of citizens in the continued development, implementation and assessment of all Palm Tran services.

The PTSB meets on the fourth Thursday of each month to review and discuss existing and proposed Palm Tran service. These meetings are designed to provide the public and interested parties with the opportunity to be heard in regard to existing or proposed services. Comments may also be submitted in writing in advance of these meetings.

HURRICANE SEASON IS JUNE 1 TO NOVEMBER 30

ARE YOU PREPARED?

For the safety of our customers and operators, Palm Tran's hurricane policy requres bus service to be discontinued if:

- **Winds reach a sustained level of 40-45 miles per hour**
- **Emergency operations personnel deem driving conditions unsafe**

Have an emergency transportation plan in place to get you safely to your destination in the event that Palm Tran is required to implement this policy. Once roads are safe to travel, service will resume as quickly as possible.
