Transit Leaders Meet to Discuss Future of Transportation in South Florida

On June 29 at 1:30 p.m. executive leaders from Palm Tran, Broward County Transit, South Florida Regional Transportation Authority, Miami-Dade County Transit, and Brightline convened in Broward County to discuss transit in the South Florida region.

The first of its kind, this meeting gave the general managers/CEOs of these organizations an opportunity to discuss fare interoperability, new technologies and other collaborative efforts that will enhance public transportation in South Florida for years to come. They also shared best practices and ideas for their transit properties in a roundtable discussion.

Palm Tran's Executive Director Clinton B. Forbes said, "I organized this meeting to begin a routine collaboration within the region to ensure that our mutual customers are able to travel using our systems without concern for geographical and municipal boundaries. Transit customers should experience effective and seamless transit service in the South Florida region."

The group plans to meet quarterly to ensure the positive momentum begun at this first meeting continues into the future.
